

OFFICE MEMORANDUM - UNITED STATES GOVERNMENT

25X1A TO: CIA - [REDACTED]

DATE: July 13, 1954

25X1A FROM: PIRS/OIR - [REDACTED]

SUBJECT: Index to La Stampa

ERS has now seen the first copies of the new index to La Stampa being prepared in CIA.

It strikes us that this index would be a most useful research tool to scholars outside the government. If it were possible to send copies outside the government, such distribution would give ERS a further advantage in its dealings with the scholarly fraternity.

Could you determine:

- 1) Whether copies could be made available to ERS for distribution, and if so, how many copies could be regularly furnished.
- 2) Whether there would be any objection on security or other grounds to such distribution.
